MARTIAL NOW

Fortesque and Wife

MORE TROUBLE FOR CAPT.

"Billy" Taggart's Testimony
To be Contradicted
On Monday

(Scripps-McRae Dispatch.)
WOOSTER, O., Sept. 2.—Whether or not he wins the divorce suit Capt. Taggart must stand trial by courtmartial. An army officer says courtmartial is waiting as a result of the divorce case because of the amended petition in divorce trial is a basis for charges in courtmartial.
Captain James Taylor, attorney for Mrs. Taggart, say it is practically certain Fortesque will file charges against Taggart.
Mrs. Taggart will be a witness against her husband in the courtmartial which hears the charges filed by General Minor.
This morning was spent reading the depositions of army officers who said the captain was sober and to the best of their knowledge treated his wife and children kindly.
Major Newberry, who was associated with Taggart at Manila and who knew Augustina, is coming Monday. Witnesses are coming also from Orrville to contradict "Billy" Taggart's testimony. "Billy" will be placed on the stand again. The judge is anxious to finish the case and has decided to hold court labor day. It is expected the evidence will be all in and arguments completed by Thursday.

HORSHOERS
ON MONDAY

Master horseshoers of Wisconsin will meet in La Crosse in annual session Monday. A couple of hundred horseshoers from all over the state are expected to attend the convention, and when the formal business is completed will take part in the Labor Day celebration at the fair grounds.

Redmen Enjoy
Big Day

Forty members of the local Redmen's lodge participated in the annual outing yesterday. The Otto and Foster launches conveyed the party to

Trempealeau bay, where the day was spent. The party started for Winona shortly after five o'clock, landing there shortly after seven.
The evening was spent as guests of Winona Redmen, a social session being enjoyed in the lodge room. Accounts of the evening's entertainment vary. Some of the party claim they arrived home on night trains, while others say they got here on the Northwestern at 8 this morning. A dozen others were seen wending their way up street from the levee at 8 o'clock this morning, having evidently just arrived in the launches. The manner in which the Redmen got home does not matter much anyway, as they all finally arrived.

LA CROSSE VETERANS LEAVE.

La Crosse delegation of G. A. R. veterans left over the Milwaukee road this noon for Denver by way of Milwaukee and Chicago. Those in the party were Department Commander F. A. Copeland, Assistant Adjutant General W. L. Osborne, R. E. Osborne, Col. B. F. Bryant, R. A. Scott, W. J. Davidson, George D. Wright and A. R. Noble. They go to Milwaukee where they will join 500 state veterans. A special train will take the Wisconsin delegation to Denver from Milwaukee.

Marshall From Palmyra Arrives

STOLE \$200 FROM DEPOT

Willis and Bert Fisher Are
Taken Back to Face
Crime.

It developed today that the two men who were captured by Officer Alois Yehle on the north side yesterday were not members of the post-office gang, but were young men from Palmyra, Wis., who were wanted there for breaking into the depot where it is said they stole between \$125 and \$200.
It is said that their names are Wiles and Bert Fisher, aged 21 and 19 respectively. They have been on the north side visiting a young lady on Berlin street for some time and they were closely watched until the police were sure that the description which they had received tallied. They were taken back to Palmyra by the marshal this morning. They have been very clever while here and evaded the police as much as possible and when taken up indignantly asked the reason.
The Palmyra marshal arrived in the city today and returned with the prisoners.

INTERLEAGUE SERIES PROBABLE

A series of games between the pennant winners of the four northwestern

leagues, the Three I, Wisconsin, Iowa and Northern leagues to decide the minor league championship of the northwest, may be arranged to take place at the end of the season, which in most of the leagues will be in from two to three weeks. Duluth has already won the pennant in the Northern league, being so far ahead that it can not be overtaken, and while not positively decided, it is generally expected that La Crosse will win the Wisconsin and Ottumwa the Iowa pennant. The Three I pennant will go to Dubuque or Rock Island. The manager of the Duluth team has proposed to get the four pennant winners together at La Crosse. It is assured that Dubuque, if it wins out in the Three I, will take part in the post-season baseball tournament, and no objection is expected from the Iowa league. In any event, whether the others join them or not, there will be a series between the winners of the Wisconsin and Northern league championships. The dates for these games have been set for Sept. 23, 24 and 25 at La Crosse.

WINONA LANDING

While Goetzke's Back Is
Turned Thief Hooks
His Skiff.

While Otto Goetzke of La Crosse was working in his launch at the Winona levee at dusk last night a thief pulled up in the rear of the craft and stole a hunting skiff tied to the stern of the boat.
It was just growing dark as the party landed and Mr. Goetzke immediately started to put the launch in order for the night. He pulled down the curtains and closed the launch up tightly and then clambered outside to pull his hunting skiff, which had been floating along behind, up alongside the launch. The skiff was gone. He at first thought it had become untied and floated off down stream but an investigation developed that the rope had been cut with a sharp knife. The matter was reported to the Winona police.

JURY FAILS TO
FIND WHO IS
SLAYER

Who shot Julius Davis, the negro who died of wounds received in the gun fight on the steamer Quincy a week ago last Sunday evening at Eagle Point? That is a question the coroner's jury, which held an inquest on Davis' body, could not answer from the evidence before them. The jury's verdict is as follows:
At an inquisition held on the body of Julius Davis, we, the jury, find that death was due to hemorrhage from a wound in the liver caused by a pistol in the hands of some person unknown. We further find the evidence that H. J. Brinker was fully justified in the part taken by him in said transaction.

MILTON CASE MAY NOT BE ARGUED IN COURT TODAY

Judge Prentiss Writes Lengthy Account of Proceedings in His Court When the Girl Was Nabbed

Indications at three o'clock this afternoon were that the Milton matter would not be argued before Judge Prentiss this afternoon. Court Commissioner Prentiss is writing a lengthy account of the proceedings in his court, containing full particulars of the alleged contempt of court procedure of Chief Byrne and District Attorney Bosshard, in taking Blanche

Milton away from his court before the order for her release under habeas corpus proceedings was signed.

In case District Attorney Bosshard and Attorney Bleckman do not come to an agreement to argue the matter late this afternoon it will not come up for two weeks. Mr. Bosshard leaves tonight for Denver to be gone that length of time.

PIONEER OF WESTERN WISCONSIN IS DEAD

Harrison Birchard, one of the earliest pioneers of western Wisconsin, died Wednesday at the home of his daughter, Mrs. J. P. Burdick in Galesville.

Harrison Birchard was but eighteen years of age when he landed at Black River Falls in 1847. Black River Falls wasn't much more than a lumber camp in 1847. The country was a wilderness of pine and the first sawmills were cutting into it. Young Birchard went to work in a mill and for the next thirty years his time was taken up in logs and lumber. He owned several mills, run lumber for

himself and others, and was one of the best known raft pilots on the Black and Mississippi. There wasn't a foot of river between the Falls and St. Louis that was less familiar to him than his own millsite.

He was married in 1853 to Elizabeth Heineck, who died about twelve years later. He was subsequently married, his second wife dying eighteen years ago.

Mr. Birchard came to Galesville in 1878 and bought a farm on the outskirts of the city. He built a comfortable home and remained on the place until he retired.

Kermit the Hero of the Hour.
Burlington, Ia., Sept. 2.—Kermit Roosevelt was the hero of the hour on a Burlington train which passed through here. An old couple boarded the train at Omaha, and not having reserved a berth were unable to get any but an upper. Young Roosevelt, hearing of the annoyance to which they were put as a result of this, tendered to them immediately without a word his lower berth and jumped into the upper.

THE PLAYERS

AND WHAT THEY OFFER THIS WEEK

TONIGHT'S SHOW AT
THEATRE ONE OF
THE BEST

Lincoln J. Carter's "Heart of Chicago" will be presented at the La Crosse theatre tonight. The scenes are laid in and about Chicago, the first showing a panic scene during the great fire of 1871. Then after a term of years a birdseye view of the city is shown from the roof of the Masonic Temple. One of the most thrilling incidents in the piece is in the fourth act when a railroad track is shown with the headlight of a locomotive appearing in the distance. It gradually grows brighter until a large locomotive comes steaming onto the stage, calling forth great applause.

The play tells of a villain who robs a business house with which he is connected, but he is finally brought to justice by the champions of the women he has persecuted, aided by a former business associate whom he has ruined. There is considerable humor in the play and many clever specialties are introduced. Price, 10, 20, 30 and 50c.

"My Friend from Arkansas" is a masterpiece of play writing from the pen of Robert Sherman who has spent years in the south studying southern characteristics. His play is based upon local history in and around Fayetteville, Arkansas, with every character taken from life, making it one of the most beautiful as well as the most natural play ever written. The scenes are exciting and of intense heart interest. The characters are strong and the comedy bright and sparkling. In fact an

BIJOU OPENING AN EVENT OF INTEREST.

The opening of the Bijou theatre Monday afternoon for the fall season is an event which will be welcomed with interest by the La Crosse theatre going public.

The bill, which was announced in The Tribune yesterday, is one which has never been eclipsed at the Bijou during its first season and will undoubtedly draw a big house.

One of the features which is regarded as the most interesting is the explosion in the coal mine, a wonderful view taken 1,500 feet below the earth. The motion picture shows the miners at work, the explosion, the flooding of the mine and the rescue.

DEATHBED MARRIAGE

Galesburg, Ill., Sept. 2.—Miss Julia Dunn was injured at night, married at noon next day to John Shea, a wealthy farmer, and died at 2:30 o'clock the same afternoon. She had been Shea's housekeeper. The couple drove here at night. A runaway horse, frightened by an automobile, dashed into their rig and hurled the occupants to the ground. Miss Dunn received severe internal injuries and was taken to a hospital.

She and Shea were strongly attached to each other. She had no relatives to whom to leave \$20,000 that she had accumulated and she did not wish it to go to the state, but it could be left to Shea on his marrying her. The county clerk carried the license to the hospital, where the ceremony was performed. The woman was scarcely more than able to give faint answers to the usual questions.

It was also the birthday anniversary of one of the guests and a birthday cake set in a wreath of yellow and green, and surmounted with a long, lone candle, was brought in and presented to the "birthday child." A parcel shower was also in order and occasioned many original remarks as each article was brought forth from its multitude of wrappings.

A PLEASANT SURPRISE.

Mr. and Mrs. L. W. King enjoyed a pleasant visit from an uncle and aunt, Mr. and Mrs. Wm. Galbraith, of Monmouth, Ill., who have just returned from a trip to Maybourn, Canada, where they purchased 480 acres of wheat land within two miles of Maybourn. They expect to move there in March of the coming year. They had some samples of wheat and oats the straw of which measured 5 feet and 6 inches in length and they claim the wheat on their farm will make 40 bushels and the oats 80 to the acre. They left for home on the Burlington today.

Many Persons Have Catarrh of Kidneys, Or Catarrh of Bladder and Don't Know It.

President Newhof and War Correspondent Richards were Promptly Cured By Pe-ru-na.

Mr. C. B. Newhof, 10 Delamare street, Albany, N. Y., President Montefiore Club, writes:

"Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced years. I took Peruna, hardly daring to believe that I would be helped, but I found to my relief that I soon began to mend. The irritation gradually subsided and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."—C. B. Newhof.

Suffered From Catarrh of Kidneys, Threatened With Nervous Collapse. Cured By Pe-ru-na.

Mr. F. B. Richards, 609 E Street, N.W., Washington, D. C., War Correspondent, writes: "Exactly six years ago I was ordered to Cuba as staff correspondent of the New York Sun. I was in charge of a Sun Dispatch boat through the Spanish American War. The effect of the tropical climate and the nervous strain showed plainly on my return to the states. Lassitude, depression to the verge of melancholia, and incessant kidney trouble made me practically an invalid. This undesirable condition continued, despite the best of treatment.

Finally a brother newspaperman, who like myself had served in the war, induced me to give a faithful trial to Peruna. I did so. In a short time the lassitude left me, my kidneys resumed a healthy condition, and a complete cure was effected. I cannot too strongly recommend Peruna to those suffering with kidney trouble. Today I am able to work as hard as at any time in my life, and the examiner for a leading insurance company pronounced me an "A risk."

In Poor Health Over Four Years. Pe-ru-na Only Remedy of Real Benefit.

Mr. John Nimmo, 215 Lippincott St., Toronto, Can., a prominent merchant of that city and also a member of the Masonic order, writes:

"I have been in poor health generally for over four years. When I caught a bad cold last winter it settled in the bladder and kidneys, causing serious trouble. I took two greatly advertised

PRES. C. B. NEWHOF, Suffered From Catarrh of Bladder.

Kidney remedies without getting the desired results. Peruna is the only remedy which was really of any benefit to me. I have not had a trace of kidney trouble nor a cold in my system."

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent results. Peruna is the only remedy which was really of any benefit to me. I have not had a trace of kidney trouble nor a cold in my system."

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

PRESIDENT ROOSEVELT'S INFLUENCE.

While "hitches" in the peace arrangements continue to come, it is believed that nothing will be permitted to arise of sufficiently obstructive nature to defeat a final and full adjustment of the Russo-Japanese war.

To deny that President Roosevelt has done much to make the conclusion of peace possible would be unfair to our busy and effective executive. Under the surface there is a well defined feeling in both Russia and Japan that a continuance of the war would have been more satisfactory; neither likes the terms of peace, both feel that the concessions are humiliating.

That either side would have accepted terms that to each seemed unsatisfactory, were there not some other power forcing them, seems certain. We all assume that that power was the influence of President Roosevelt. No other forces were operating, at least on the surface, and there is no reasonable doubt that the president had as much to do with closing the peace contract as he did with the initiation of proceedings.

Humanity owes thanks to our American President; thousands now living, who would shortly fall upon the field of battle, have something for which they owe a debt to the hero of San Juan Hill.

"OTTO MUELLER DON'T CARE."

He worked faithfully for the engineering department of this city, some say for 14 years.

When the salaries of others were raised, he said nothing tho' his was left at the same old \$85.00 per month.

He was a democrat who consistently supported his party; an employee who never shirked duty; a man whom all who know respect for his simple honesty and kindly disposition.

For fourteen years of apparent contentment and valuable service Otto Mueller has waited the sweet will of his party as to a long earned promotion. They didn't raise his salary at the time of the salary grab, for they said "Otto Mueller is satisfied." But for the intercession of friends, this injustice would have gone without complaint.

At last, after fourteen years of loyal service to public and party, there comes an opportunity to reward Otto Mueller. A city engineer is to be appointed; a democratic mayor presides; Otto Mueller is the only competent engineer of democratic faith in the department, and is in line of promotion. At last will the long standing debt be paid.

But the democratic mayor comes flying home from far away. Some say he is summoned by a telegram from republicans who after caucusing wire him that they will support him if he will do one thing—appoint a republican. His party associates are a unit for a democratic choice, but the republicans want a republican. And, conniving at something the nature of which can only be guessed, the democratic mayor appoints a republican!

"For," he says, "Otto Mueller don't care." Think of it. After 14 years of dutiful work, his long deserved promotion before him, it is said in justification of the deliberate injustice of his rejection that, "Otto Mueller don't care!"

"—PATHS" AND "PRACTICES."

The Tribune does not know much about "Dr." Johnson. It knows about as much concerning "chiropractic" as it does about "osteopathy."

But The Tribune knows one thing. That is that there cannot come into the state of Wisconsin, regardless of merit, a healer who advertises and gets patronage, without the "ethical" crowd falling on him and swatting him with some sort of law.

"Chiropractic" may be humbuggery; or a meritorious practice that will be a boon to humanity. It doesn't matter which. The only thing that matters is whether there is a law that can be warped to put the operators out of business. It used to be that way with "osteopathy," but between politics and merit, that is now recognized as "legitimate." "Chiropractic" had better quit business or get into politics.

For it don't matter to the "legitimate" whether it is a valuable science or a humbug. It must be fined and jailed and blasphemed until it quits business, for the sake of "ethics"—and to keep the money from getting into the hands of "irregular" practioners.

REGARDING "QUOTATIONS."

"I don't see how any democrat can vote for the confirmation of Walter Woods. He is the best man in town for the position. I would very much like to see him have it but I don't think he ought to be given it. What excuse can we make to our constituents if we confirm Woods' nomination. I vote for Woods." From speech of the alderman from the Thirtieth on the nomination of Walter S. Woods for city engineer.—Leader-Press.

"This," says Alderman Rose, "is a lie. I did not say the things alleged to have been quoted. The person claiming to quote me, knows, if he was present at the council meeting, that he lies when he said I used that language."

At least a half dozen others who were at the council meeting agree that Mr. Rose was misquoted. He did not say Mr. Mueller was inferior in ability to Mr. Wood, or visa versa; he did not say "I vote for Mr. Woods."

But then, Mr. Rose was one of the fellows who knocked the bottom out of the COMMON STOCK market, and that makes a difference. That makes a very great difference!

LIGHTNING STRIKES CAPITOL AT MADISON

MADISON, Wis., Sept. 2.—During a fierce electrical storm that passed

over this city late yesterday afternoon lightning struck the dome of the state capitol, Mayor Curtis' house, and a flagpole on the Alrston block on Main street. No damage was done to the capitol building, as the huge iron dome acted as a splendid conductor of the electric fluid. The lightning followed the electric wiring at the Curtis' home and set fire to several parts of the house, but did not do a great deal of damage.

PRESS AGENT BUSY.

President Roosevelt's press agent is already active. Yesterday there flashed over the press wires from Washington the report that "from high authority" comes the prediction that the American people "just can't help nominating and electing Roosevelt in 1908" after the peace conference. Well, anyway, some people would like to know the inside of the Loomis-Bowen and the Morton and divers other shady streaks.

WHAT RECIPROCITY IS.

The Kansas City World defines anyone to define reciprocity. Huh! Reciprocity is something used by the beneficiaries of a protective tariff to keep people talking so much about that they forget they are being robbed by the aforesaid beneficiaries. The World should hunt up a harder one next time.—Bryan's Commoner.

THE SPECTATOR.

Just about this season of the year, says the Trempealeau Gazette, snake stories abound in the newspapers and some wildly fantastic tales are told for the edification of the readers of the various journals, all of which have more or less foundation in fact. The Gazette however has a truthful tale which will bear the most searching investigation. Last Sunday while Albert Johnson was seeking the venomous diamond back rattler in his lair among the rocky bluffs which abound in the vicinity of Trempealeau, he discovered the king of the rattler tribe enjoying a sunbath on a convenient rock. He made a cautious approach and soon the king was dead, and before many moons his tanned skin will encircle the waist of some ultra-fashionable dandy in one of the larger cities. The snake measured nearly seven feet in length and carried nineteen rattles. This is but one of the many captured this season

by Mr. Johnson, who is devoting his time to the business, which he finds quite lucrative.

Hunters, who go out after ducks along the Mississippi bottoms in this vicinity this fall will be disappointed. Continued high water during the summer has spoiled duck hunting for the year. So far as known there is only one wild rice field left in the county and that is located at the pond near Neshonoc north of Salem. The water in the Mississippi has been so high that the rice has not had a chance to grow on the bottoms between La Crosse and Lytle, the territory ordinarily swarmed with ducks at this time of the year. The birds naturally will not remain where there are no feeding grounds, and sportsmen will waste their time to wait around these bottoms for the flocks to rise at daybreak and sunset. The ducks are not there. Two days of hunting has cleaned out the rice fields near Salem, too, and the sporty nimbler who thinks he must bag a few mallards or teal had best make ready for a journey.

La Crosse county has been depopulated of deer. This may sound silly to the city-bred tenderfoot, who naturally would venture the opinion that there have been no deer in La Crosse county for years. But there have been deer running wild within the county limits in recent years—as late as the spring of 1904. At that time any resident of the northern part of the town of Farmington will swear there were deer in that vicinity. Their tracks were visible at all time of the year and frequently the restless creatures ventured into the farmers' fields after fodder. Five years ago when Carl Palmer was game warden he took a census of La Crosse county deer and as near as he was able to learn there were 11 of the animals making their homes in the county. During the last three or four years however, unscrupulous hunters have either killed them off or driven them away and today there are no deer in the vicinity.

A DROWNING MAN

As a drowning man grasps at a straw, so does the average man afflicted with any form of disease seek relief through the most cleverly advertised medium. He believes the misleading statements and unbusinesslike propositions offered in the promises of quick cures, buys experience at the expense of his nerve force and vitality, and then awakens to the realization of the fact that relief and cure are obtained only through the services of a reputable physician.

When contemplating treatment, one should consider the factors of skill, experience and reliability, which can best be secured by consulting the physician whose reputation for skillful, conscientious treatment among the people of the vicinity, entitles him to the respect and confidence of all in need of medical treatment.

Dr. L. M. Turbin of Chicago, who has visited our city once every month for years, is qualified in every way to fill these requirements by reason of the success which has attended his wide experience. The assertion that there is no doubt of his ability to restore those afflicted to health, is based on the fact that he has successfully treated and cured so many of our friends. Dr. Turbin may be consulted free of charge and will again visit La Crosse Monday, Sept. 11th, at Hotel La Crosse.

OSTEOPATH CAUSES ARREST OF CHI- ROPRACTIC

JOHNSON CLAIMS PROFESH. JEALOUSY

G. W. Johnson, arrested on a charge of practicing as a doctor without a state license, at 5 o'clock yesterday afternoon, was arraigned before Judge Brindley a few minutes thereafter. The court adjourned the case until September 20 and Mr. Johnson was released on his own recognizance.

Mr. Johnson is a member of the firm of Johnson & Whipple, chiropractors, who have offices at 318 Main street, and came here from Minneapolis. According to the state law chiropractic is not recognized by the state medical board and it is doubtful if the firm would be granted a license by the state board. Neither of the firm members call themselves doctors and thereby claim they are not violating the state law.

Dr. Johnson claims his arrest is the result of professional jealousy. Dr. A. U. Jorris, an osteopath, swore out the warrant for his arrest. Dr. Jorris is a member of the state medical board and his line of work is said to be similar to that of Johnson & Whipple.

NEW POSTAL MONEY OR- DERS WILL DEFY FORGERS.

The gang of clever crooks which has been acquiring some wealth and more notoriety by raising the amounts on postal money orders has about reached the end of its rope, and within a month or so its members will have to tie themselves to the tall grass and concoct a new scheme for obtaining their livelihood, says a Washington correspondent. This method of getting coin of the realm has been in vogue for many years, but during the past twelve months it has been extremely popular, and the post-office inspectors are so busy running down the thieves that they have had little time for anything else.

Postmaster General Cortelyou has been working on this problem, with the assistance of Mr. Hitchcock, and it is now announced that a new form of money order has been devised which, if it does not defy forgery, will make forgeries and alterations extremely difficult. Before Mr. Cortelyou left on his vacation he approved the new form, and work on the preparation of plates will be begun immediately.

Twice before, since the postal mon-

Dr. Jorris claims that he does not recognize chiropractic as a part of the medical profession and that the state medical board would not grant Johnson a license, even were he to apply for one.

Dr. Johnson has retained lawyers and will fight the case in the courts.

FOOL FROM MICH- IGAN DECLARED INSANE

William Redhead, the man who confessed in court that he was "a fool from Michigan, Ha! Ha!" is insane and will be taken to Mendota Monday by Sheriff Haugen.

Redhead was committed to the county jail for throwing a knife at the daughter of A. Schroeder, keeper of road house east of the city. During his confinement he has made frequent inquiries for comic supplements to Sunday papers and during his waking hours his face constantly wears a grin. As the time for his release approached the jail officials, fearing to allow the man to roam about at liberty, made an application for his examination and he was duly adjudged insane by Drs. H. J. Miller and County Physician Eagan.

PFISTER'S COMPLETE STATEMENT EXONERATING HIMSELF.

Milwaukee, Wis., Sept. 2.—Charles F. Pfister, the capitalist who was indicted three weeks ago by the grand jury on the charge of having stolen \$14,000, which had been placed in his hands by the Wisconsin Rendering company, will make this morning a statement showing the manner in which the \$25,000 which he had held for the company was disbursed. After the indictment was returned the president of the rendering company denied that Pfister had misappropriated any of its money, and since then the company has made full payment on notes held against it by Pfister, without offering any counter-claim. The indictment, however, has been circulated that the money, if not misappropriated, was used for corrupt purposes by Pfister.

Corroborated by the Bank Record.

The statement now issued is corroborated by the bank record showing Pfister's personal account; by a statement signed by President F. C. Genoss, Joseph Schaff and Louis Schroyer, of the Wisconsin Rendering company, and also by a statement signed by John J. Criley, the contractor to whom most of the money was paid. Criley, in acknowledging the payments to him, explains that at the time the city contract was awarded to his firm he found himself unable to enter into the contract on account of lack of funds.

Pfister Was Merely Custodian.

He then entered into an agreement with the Wisconsin Rendering company, which had an established plant at Mequon, that if that company would put up \$25,000 with some responsible man, out of which was to be paid the expenses Criley was put in connection with the contract, the work would be turned over to the rendering company. Pfister was selected as the custodian of this fund. He had no interest with any of the bidders, and paid out the money in accordance with the orders of the parties interested, and had nothing to do with it further. None of this money, Criley states, was used for unlawful purposes.

Did Not Steal One Cent.

The payments show conclusively that Pfister did not steal any of the rendering company's money, and also that he did not use any of it in an improper manner.

NO BASIS FOR THE INDICTMENT

Grand Jury Does Not Try to Ascertain the Facts of the Case.

A supplemental statement by Pfister's attorneys discloses the fact that when the grand jury had the indictment under consideration two of its members, together with District Attorney F. E. McGovern, visited the First National bank and there received Pfister's permission to examine his account. They found the entry showing the deposit of \$25,000 on July 19, 1897, but apparently disregarded entries on the same page showing the payments of \$6,000 and \$9,000, respectively, to Criley, nor did they call upon Pfister for any explanation which would readily have put them in possession of facts showing the charge of theft to be without foundation.

The statement no wisened seems to show there is basis neither for the indictment on a charge of larceny, nor for the accusations that the money held by Pfister was used by him

JAPS HAVE NOT YET TOLD WHY THEY DISTRUST THE RUSSIANS.

Portsmouth, N. H., Sept. 2.—Japan has refused to consent to the cessation of hostilities until the treaty of peace has been signed. The Russian plenipotentiaries accompanied by their secretaries, called on Baron Komura and Takahira, and were in conference with them for half an hour. Japan having previously indicated through Baron Komura her willingness for an armistice, de Witte supposed that he would find them ready to sign. Baron Komura explained that while his government was ready to consent to an armistice his instructions were that this should not take effect until after the signing of the treaty.

Japs Sticks to His Point.

The discussion lasted for half an hour, the Russian position being that Japan's contention was without precedent, and that if the armistice was not to take effect until the signing of the treaty it was practically unnecessary. However, the Japanese were insistent, and an agreement was accordingly entered into providing for an armistice which shall take effect the moment the treaty is signed.

Sato Make an Explanation.

Sato, in explanation of Japan's insistence that the armistice shall not go into effect until the treaty is signed, said: "It is necessary that not only the commanders in the field, but all the commanders of ships, shall be notified, and this necessarily requires a little time. Japan did not desire to have the armistice go into effect until the commanders on sea and land had been notified, thus ensuring the maintenance of the agreement." It is pointed out in Japanese circles that an armistice has practically been in effect since the conference began, and it is declared that there is no ground for anxiety for a clash before the signature of the treaty.

De Martens and Dennison Disagree. As a result of the reports made by

de Martens and Dennison to their respective chiefs upon their work at the navy yard in the drafting of a treaty of peace, de Witte and Baron Komura had a brief conference in the former's apartments at 8:30 p. m., regarding some details of translation and a few points of interpretation upon which the framers had been unable to reach complete accord. When Baron Komura left Dennison and Adachi he entered the apartments of de Witte, where they were joined by de Martens and Plancon.

Matter Soon Straightened Out.

This conference lasted for about half an hour, when the Japanese returned to Baron Komura's apartments leaving de Witte and his conferees who remained in conference for more than an hour. De Witte and Baron Komura had no difficulty in coming to an agreement on the disputed points, and at today's session the framers of the treaty expect to complete their work.

EPIDEMIC IS NOT FEARED.

Berlin, Sept. 2.—Forty-three cases of cholera in all have been reported. Nine persons have died from the disease, and many suspicious cases are under observation. The legal and medical machinery for dealing with this invasion of the Asiatic bacillus is now working at full pressure. Prof. Edward Sonnenburg said to the Associated Press that no one need fear an epidemic such as that of 1892-93, because the health authorities since that time had built up an organization quite adequate to grasp the beginnings of cholera and to put down the disease with precision and firmness.
